MASS TRANSIT PRODUCTS

- **Severe Use Workbenches**
- **Heavy Duty Workbenches**
- **Heavy Duty Ladders and Work Platforms**
- **Specialty Wash Carts and Tanks**

- **Specialty Oil & Anti-Freeze Drains**
- **Battery Wagons**
- **Battery Room Benches**
- **Battery Room Equipment**
- **Extra Heavy Duty Storage Racks**

A-FRAME LADDER SSC SERIES AF50

- 38" h x 26" w
- OSHA standards
- Safety orange paint
- Grip strut top & steps
- Raised casters
- Standard and custom sizes

ANTI-FREEZE & WASTE OIL CADDY SSC SERIES LAFF2400

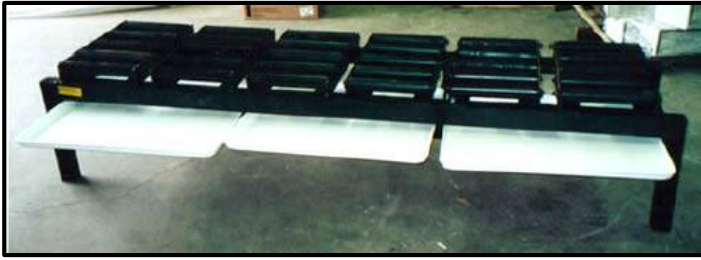

- 18 gal cap. for waste oil
- 24 gal cap. for anti-freeze
- 12 volt pump for anti-freeze
- All-welded construction
- 12 gauge steel throughout
- 24" w x 34.5" l x 8" h (oil)
- Expanded metal top screen
- Detachable handle
- 3" poly casters (2 swivel, 2 rigid)
- Internal baffles
- Red epoxy finish
- 24" w x 36" l x 9" h (anti-freeze)

ANTI-FREEZE/OIL CADDY SSC SERIES UAF65

- Heavy duty casters
- Air or electric pumps
- Paint color customized
- 65 gal cap.
- Drip pan
- Adjustable funnel
- Site gauge

BATTERY BENCH SSC SERIES BB100

- 24" depth; 18" height
- Welded construction (3" x 3" x 1/4" angle steel ASTM A36)
- 2" rollers
- Cap. 200 lbs. per lineal foot
- Weight approximately 300 lbs.
- Acid resistant black paint
- Slide out acid resistant trays
- Standard and custom sizes

BATTERY CART, HYDRAULIC ADJUSTABLE (SSC SERIES HBC4000)

- 600 pound cap.
- Platform 20" x 33" hardwood over steel
- Approximately 200 pound weight
- Heavy duty 5" lockable casters
- Platform travel: 12" to 37"
- Overall size: 24.5" x 36"
- Will hold 3 batteries (HBC-3) or 4 batteries (HBC-4)
- Acid resistant finish

BATTERY WASH RACK SSC SERIES BW7000

- 48" w x 24" d x 51" h
- 21" h to top of rollers
- Other sizes available
- 30 gal sump with drain
- Acid resistant finish
- Hardwood rollers
- Optional drain pump
- 3" x 3" x 1/4" angle steel frame

BATTERY WASH, PORTABLE SSC SERIES PBW300

- 36"L x 30"W x 10"H
- Non corrosive; non conductive
- All welded poly nylon material
- Four casters
- 37 gal cap
- Hinged handle
- 24v submergible screened pump
- Pump hooked to bus battery
- In-line on/off switch
- Specially designed non splash top
- Removable top for easy clean out
- Specially designed non spill baffles
- Standard and custom sizes

DIESEL FUEL TRANSFER TANK SSC SERIES DFC2000

- 125 gal cap
- Heavy duty frame and casters
- Air-operated diaphragm pump
- Regulator; Sight gauge; Hose and nozzle
- Replaceable fuel filter
- Water drain valve
- Ground clamp
- Heavy duty drain pan with screen
- Adjustable funnel

DRIP BENCH SSC SERIES DB100

- 60" x 36"
- Center drain; 5 gal sump
- 12 gauge steel reinforced top
- 2" x 2" x 3/16" angle frame
- 1 1/2" x 1 1/2" angle stringer
- Grey epoxy finish
- Standard and custom sizes

PORTABLE LUBRICATION CART SSC SERIES LC-4040

- (2) 40 gallon rectangular steel containers with guarded PVC sight gauges
- (2) air operated diaphragm pumps with lockable filter regulator lubricators
- (2) medium pressure reels, self-closing handle, digital readout meter programmable in pints, quarts, or gallons
- Standard and custom sizes

Equipment mounts on a 28"w x 60"l drip pan base with 6" mold on rubber casters, two have foot operated brakes. Height to top of push bar handle is 36". Top of containers are 40" and top of funnel 46". Four lifting eyes are included on corners of cart base for lifting cart in and out of pit. Hoses, reels and diaphragm pumps will be installed on cart base due to height restrictions.

OIL CADDY SSC SERIES 6015

- Slant bottom
- 15 gal overflow
- Screened top
- 60 gal cap
- Standard and custom sizes

OIL WAGON SSC SERIES 6014W

- 30 gal cap
- Slant bottom
- Locking casters
- Full screened top
- Standard and custom sizes

OIL DRAIN SSC SERIES 4040

- Heavy duty 12 gauge tank
- Phenolic lining
- 55 gal cap tank
- Fully replaceable drain pan & tank
- 1-1/2" steel angle top frame & posts
- 2" steel angle bottom frame
- 6" heavy duty casters
- 3/4" drain fitting with hose

PUMP DUMP SSC SERIES 1800

- For antifreeze or oil
- Any capacity

SEVERE USE WORKBENCH SSC SERIES HDWB3000

- 72" x 32" steel over wood top #32
- 60" x 28" steel over wood top #28
- 3" x 3" x 1/4" angle steel frame
- Plywood or steel shelves
- Weighs approximately
 - 650 pounds #32
 - 525 pounds #28
- Standard and custom sizes
- Optional casters

TEE STAND SSC SERIES TS200

- Heavy duty all-welded construction
- Steel frame and decking
- Safety grip-strut tread and platform
- Tilt-back caster design for transport
- Handle folds down when not in use
- Optional guard rails
- Standard and custom sizes

BRIDGE SSC SERIES P500

- Built to OSHA standards
- 6'w x 4'h x 30"d
- 36" high handrails
- Handrails are removable
- Heavy duty construction
- Safety orange paint
- Grip strut top & steps
- Step down lock
- Heavy duty casters
- Standard and custom sizes

SIDE WINDER LADDER SSC SERIES SW2000

- Heavy duty construction
- Step down locks
- Safety orange paint
- Narrow profile design
- Galvanized safety steps
- Swivel casters; Rubber bumpers
- Counter weight design for overhang
- Chain exit
- Built to OSHA standards
- Standard and custom sizes

ROLLING WORK PLATFORM SSC SERIES SL500

- All welded steel construction
- Steps and platform 30" wide
- Choice of platform depths
- Guardrail on 3 sides
- Handrail both sides of stairway
- Tilt-back casters
- Traction grip tread
- Other sizes available
- Optional gates

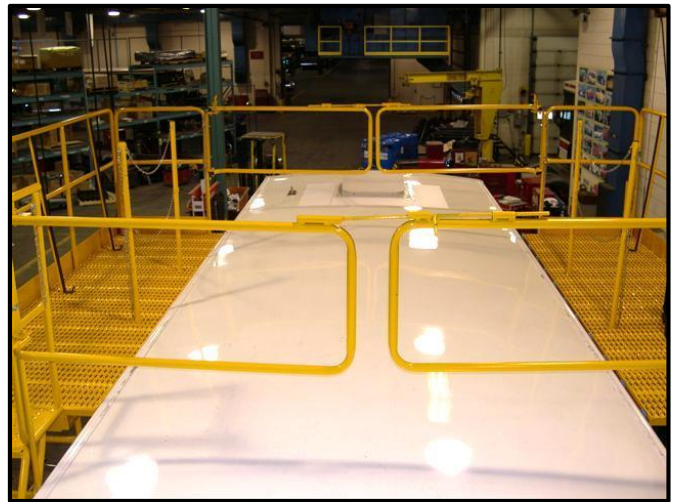

ROLLING WORK PLATFORM SSC SERIES SL1000

- Step down locks
- All welded steel construction
- Steps and platform 30" wide
- Platform 24" deep
- Guardrail on 3 sides
- Toe Plate on 3 sides
- Handrail both sides of stairway
- Heavy duty casters
- Continuous rubber protective bumper
- Built to fit rear contour of bus
- Traction grip tread
- Standard and custom sizes

ROOF WORK PLATFORM SSC MODEL #13H-LH

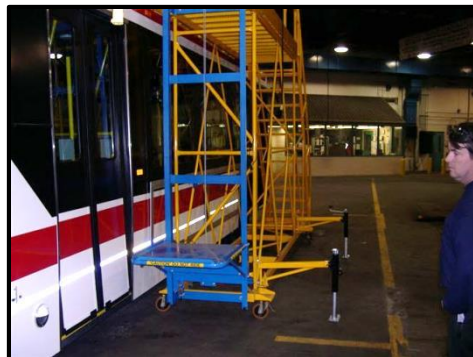

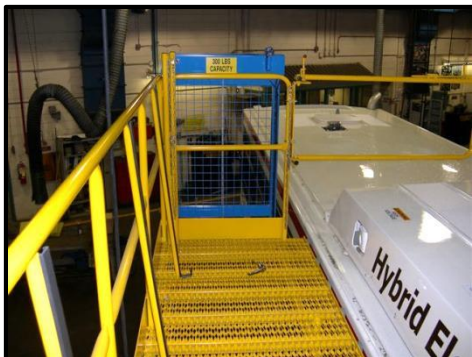

- 13 step walk-thru with platform height of 9'-7"
- 6" Platform extension on walk-thru side
- Platform extension includes 2.5" rubber pads @ 12" centers to allow unit to rest against bus
- Platform length is 12'-6"
- Safety chains, s hooks and snap hooks heavy duty 1/8"
- (2) adjustable outriggers with screw down jacks for stability
- Platform rolls on (4) 8"x2" laminated phenolic swivel lockable casters
- (2) swing gates with latches to connect to opposite unit

ROOF WORK PLATFORM WITH ELEVATOR SSC MODEL #13H-ESL-RH

All of the above information, except right side will be configured with:

- (1) multi-purpose electric shelf lift 30" deep x 30" wide with a 300lb capacity
- 12 volt low maintenance dry cell battery with onboard charger
- Unit requires 110 duplex power outlet to charge battery

Innovative Fluid Storage & Dispensing Systems

There's a better way to handle industrial oils, lubricants and fluids...

The IFH Fluid Storage & Dispensing System improves lubricant storage by providing a better way to handle all kinds of oils, lubricants and industrial fluids that is easier, safer, cleaner, and more cost efficient than traditional 55 gallon drum storage methods.

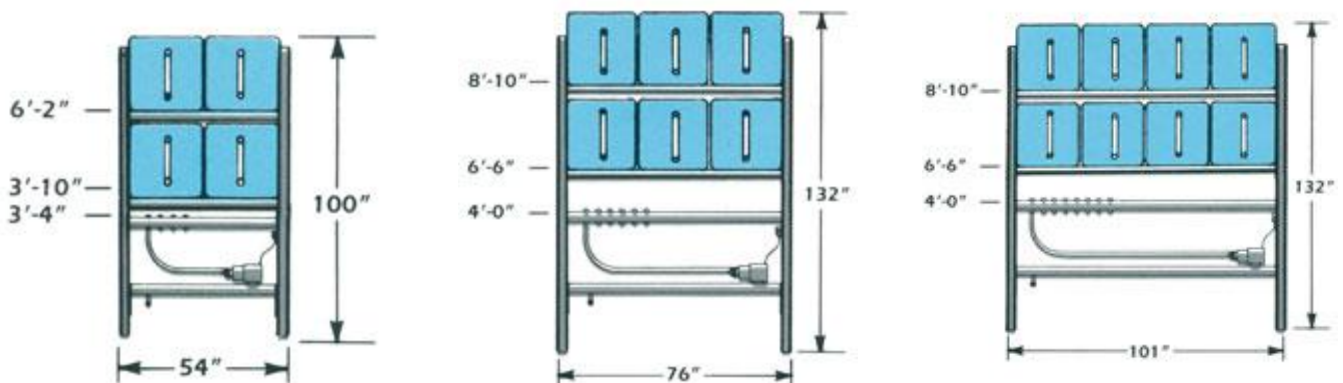

Reduced Labor with an IFH Fluid Storage and Dispensing System:

An IFH Fluid Storage and Dispensing System reduces the inefficient transfer of product; and the inefficient transfer of product can lead to safety issues, increased clean-up, labor costs, and purchase of absorbents.

IFH Fluid Storage and Dispensing Systems Reduce Space and Inventory Concerns

With drums, actual inventory is a guessing game that can result in product shortages or costly extra drums of back-up product. Drums waste a lot of space. Drum pumps leave from 2 to 3 gallons of product in "empty" containers and can add up to hundreds of dollars annually. The IFH Fluid Storage and Dispensing System oil storage drums are 65 gallons. The additional capacity allows you to pump the entire product out of a 55 gallon drum and into the system before the overhead container is empty. This reduces the downtime of employees changing drum pumps, and allows you to send drums back on the delivery truck. No more drum deposits

IFH Fluid Storage and Dispensing System come in standard sizes as well as custom configurations based on your needs.
